Become a Subject Matter Expert (SME) and help the HP Certified Professional Program develop valid and reliable exams. We have the following upcoming review and development workshops.

For full participation in one of these workshops, you will receive credit for taking the exam.

August 18–22, 2003: 
AIS ProLiant Item Review Workshop
This workshop will involve a technical review of previously developed exam items. It will be held in Houston, but remote participation is welcome through the use of the HP Virtual Classroom and conference calling.

August 25–29, 2003: 
ASE ProLiant Item Development Workshop
This workshop will involve developing and reviewing exam items for the ProLiant ASE certification exam. It will be held in Houston, and in-person attendance is preferred.

October 20–24, 2003: 
ASE ProLiant Item Review Workshop
This workshop will involve reviewing the exam items developed during the August 25 development effort. It will be held in Houston, but remote participation is welcome through the use of the HP Virtual Classroom and conference calling.

If you would like to participate, please contact Karen Petrini at: Karen.Petrini@hp.com.
